

STUDIO

LED MIRRORS 26/27

REMER

ABOUT STUDIO

The Remer Studio Range brings together sculptural mirror design and advanced technology to create mirrors that enhance everyday spaces.

Twenty-seven distinctive designs explore the relationship between form, light, and reflection, each developed to complement contemporary interiors.

Every mirror is assembled locally in Melbourne using **Guardian Glass UltraMirror® Plus**, featuring an **integrated demister**, **Remer's Seamless Lighting technology**, and built with the RCM certified **ModuBox system** to deliver a refined and enduring lighting experience.

Made to order in Melbourne
Estimated lead time: 2 weeks*

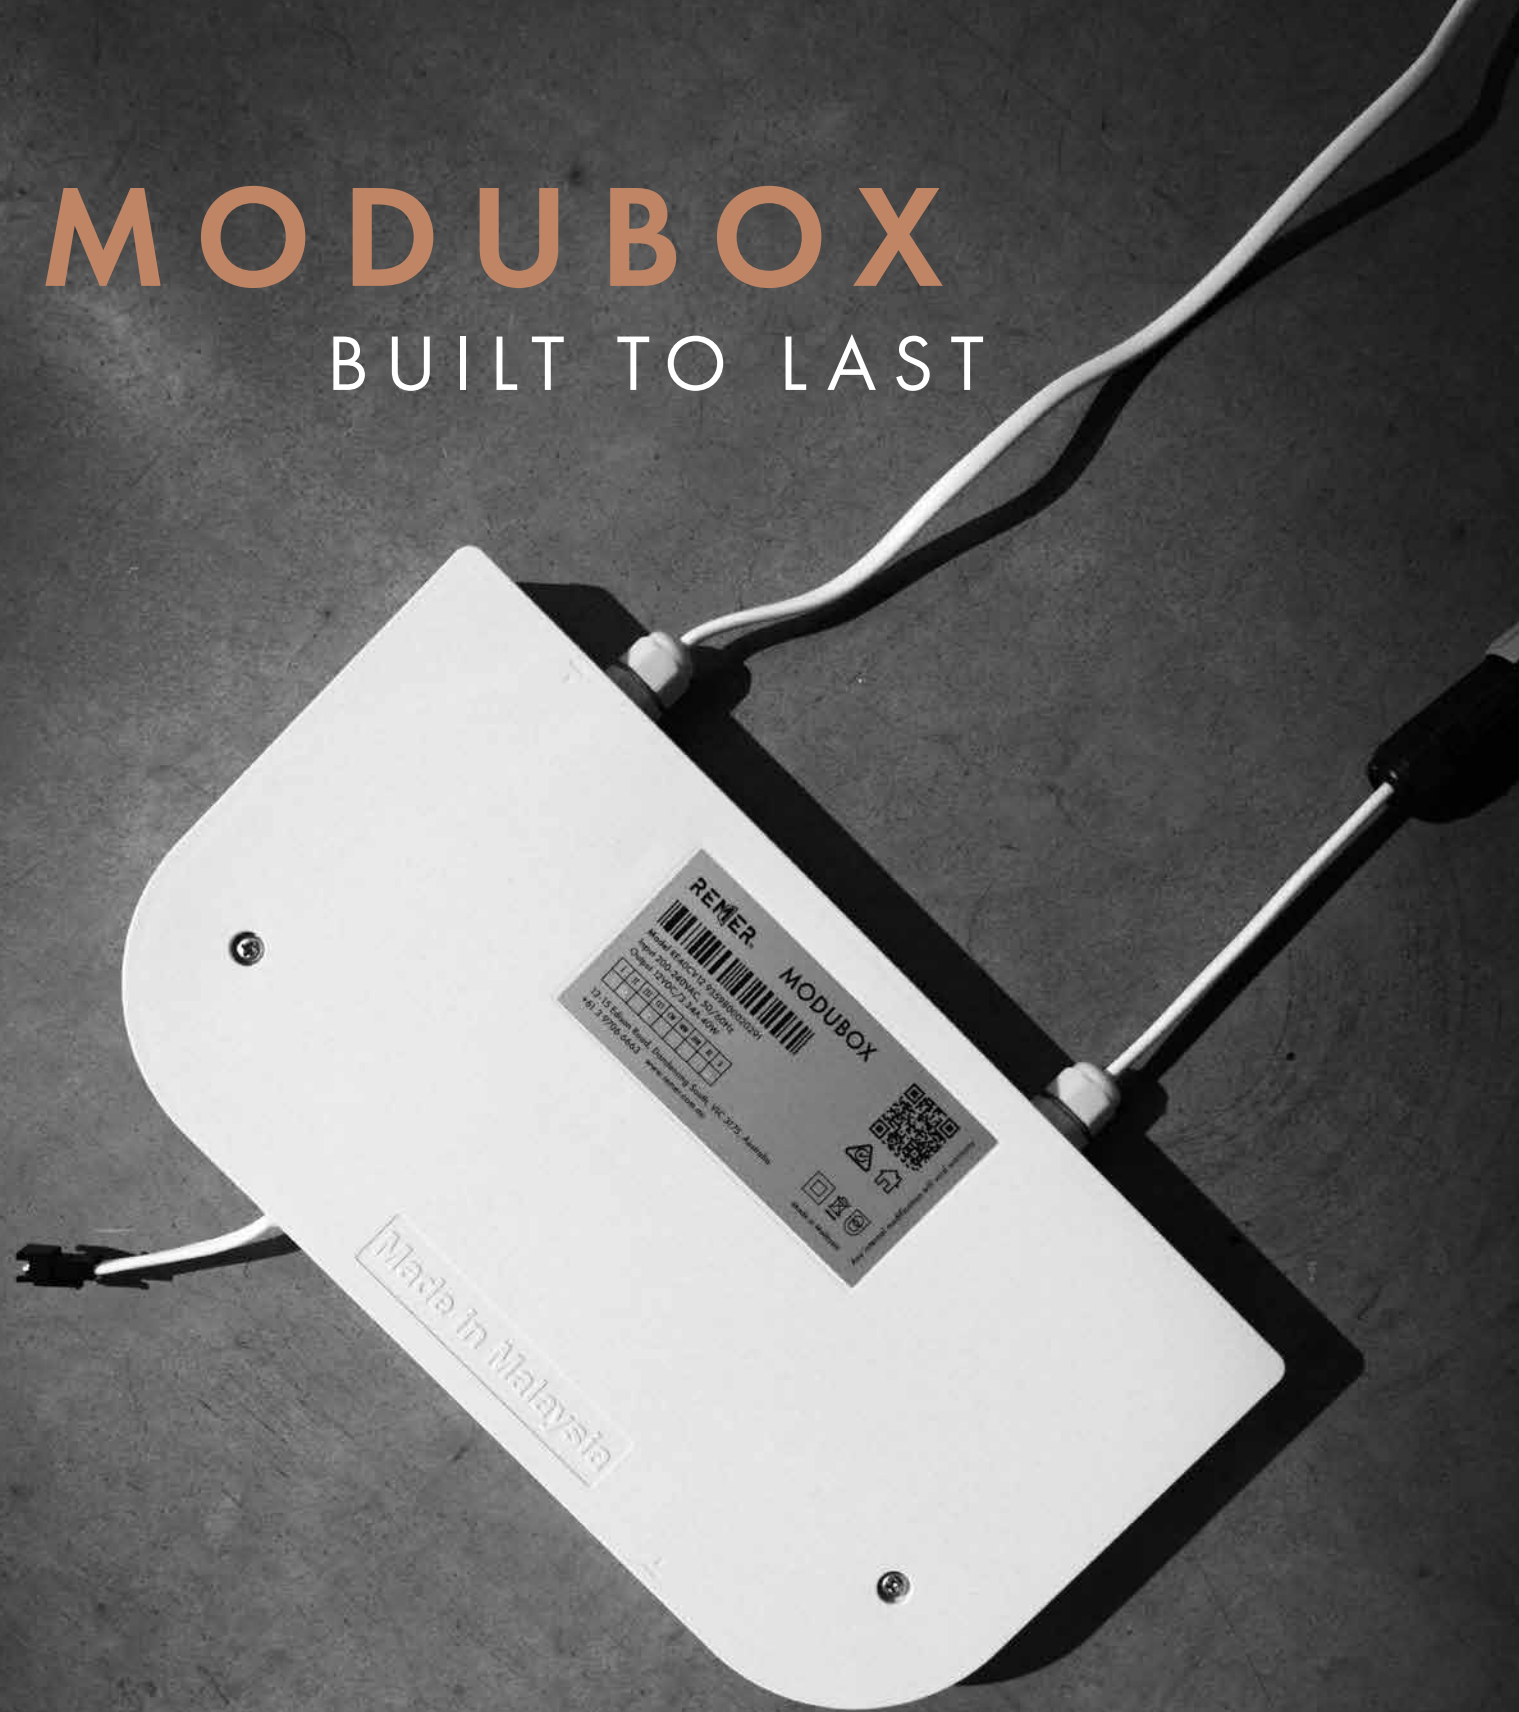

DEMISTER

GUARDIAN GLASS ULTRAMIRROR® PLUS

MODUBOX

BUILT TO LAST

At the core of every Remer mirror is the **RCM certified ModuBox system**, an engineered modular backing that has been developed as part of our move to Australian manufacturing.

This considered construction allows key components to be accessed and serviced individually, without replacing the entire mirror, supporting long-term performance and longevity.

The ModuBox system also conceals electrical components within a clean, structured backing, enhancing both safety and visual clarity. Designed to meet all relevant electrical standards, it provides confidence in both installation and ongoing use.

Not only are Remer mirrors designed to look exceptional from the front, but every detail behind the mirror has been carefully considered to reduce clutter, improve safety, and ensure a refined finish from every angle.

- ✓ RCM certified ModuBox system
- ✓ Smarter engineering
- ✓ Enhanced safety & longevity
- ✓ Simplified installation and servicing
- ✓ Fully enclosed electrical components
- ✓ Flicker-free performance

SEAMLESS LIGHTING

FLAWLESS ILLUMINATION

- ✓ A steady, refined glow
- ✓ Always seamless, off or on
- ✓ Edge to edge illumination
- ✓ Higher LED density for brightness

As part of our transition to Australian manufacturing, the Remer Studio Range was reimagined to deliver a mirror that not only performs, but enhances the space around it.

Seamless LED Lighting introduces a refined approach to illumination, replacing the harsh appearance of individual LED points with a smooth, continuous line of light. The result is a softer, more balanced glow that is gentle on the eye while providing consistent, even illumination.

Designed to sit cleanly against the wall, the lighting integrates effortlessly into the mirror form, creating a more resolved and architectural finish.

DOTTED LED

- Uneven light distribution
- 120 LEDs per metre
- CRI 90
- Up to 12w per metre
- Up to 814 lumens per metre
- LED Lifetime >54,000 hours (L80)

SEAMLESS LED

- Continuous, uniform illumination
- High-density 240 LEDs per metre
- Superior colour rendering CRI 90
- Up to 12w per metre
- High efficacy, up to 1182 lumens per metre
- LED Lifetime >54,000 hours (L80)

HOW IT WORKS

PERSONALISE YOUR MIRROR IN 3 STEPS

1 CHOOSE YOUR DESIGN & SIZE

Discover **27** distinctive mirror designs and select the size that best suits your space.

- **51** different shapes & sizes
- **7** aluminium frame colours, across **9** framed designs (frame code must be specified at time of order)

See page 8-9 for a comprehensive overview

2 CHOOSE A CONTROL

Studio mirrors allow you to choose how you interact with your mirror.

Choose one of:

- Touch Sensor with Guide Light
- Hand Wave Sensor

3 CHOOSE OPTIONAL ADD-ONS

Enhance your mirror with additional functionality.

- Bluetooth Speakers *and/or*
- Mirage Portable Magnifier

FINALISING YOUR SELECTION

Your retailer will confirm your mirror selection, including design, control, and any optional add-ons.

Each option corresponds to a specific product code.

For example:

AN50DF

- + **CB** (Cuban Bronze Frame)
- + **C2** (Hand Wave Sensor)
- + **BT** (Bluetooth Speakers)
- + **AMX5MW** (Mirage Portable Makeup Mirror)

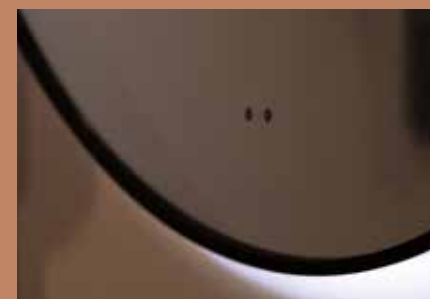

CONTROL OPTIONS

Choose how you interact with your mirror (control code must be specified at time of order).

TOUCH SENSOR WITH GUIDE LIGHT

A softly illuminated touch button integrated into the mirror surface for simple and precise control.

HAND WAVE SENSOR

Activate the mirror with a gentle hand movement within 9cm of the sensor, offering a convenient way to operate the mirror without touching the glass.

OPTIONAL ADD-ONS

Enhance your mirror with additional functionality (add-on code must be specified at time of order).

BLUETOOTH SPEAKERS

Integrated speakers allow you to enjoy music, podcasts, or audio while getting ready.

MIRAGE PORTABLE MAKEUP MAGNIFYING MIRROR

Adds magnified clarity for detailed grooming and makeup application.

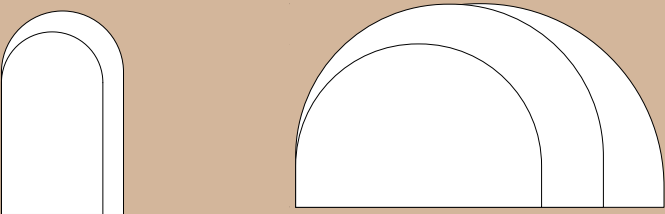

STUDIO SHAPES

Use this guide to quickly locate each design within the catalogue.

THE REMER CUSTOM EXPERIENCE

The Remer Custom Experience allows you to create a mirror tailored to your exact requirements. From shape and size to lighting and features, each piece is designed to complement your space with precision and intent.

Crafted locally in Melbourne using premium materials and advanced mirror technology, every custom mirror reflects both innovation and individuality.

Work with an authorised Remer reseller to bring your design to life.

Scan to view the full custom process and create your mirror.

- All prices are Recommended Retail Price (RRP) including GST. Prices may vary depending on location and are subject to change or correction without notification.
- Made-to-order cannot be cancelled, altered, exchanged or refunded unless faulty or damaged.
- Sizes are in mm and nominal and should be checked prior to installation.
- Please note all LED Products requiring hardwiring must be installed by a licensed electrician in accordance with local regulations.
- Actual colours may vary so please check colour samples before ordering.
- Images in this brochure are shown with accessories and other furniture which is not included in the price.
- Lead times are estimates only and may vary depending on product selection, order volume, production requirements, and factors outside of our control.
- All information is provided on an E&OE basis (Errors and Omissions Excepted). There is a huge amount of very useful information in this brochure and there is more than likely an error, big or small, somewhere.

MANUFACTURER'S WARRANTY

At Remer Pty Ltd (Remer), we pride ourselves on supplying products of a high industry standard and quality. Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

Studio Mirror Collection

5 years replacement parts or products for domestic use. 1 year replacement parts or products for commercial use. Labour is not included.

Mirage Portable Magnifier

1 year replacement for Mirage Portable Magnifier.
